

## **For The Director**

"Comfort Music Solo Accompaniment Tracks" may eliminate your need to hire musicians.

The program includes:

- Four Rehearsal/Performance CDs
- Lead sheets for all songs
- Backup Support CD-Rom which contains:
  1. Copy of the Table Of Contents
  2. All instructions
  3. Adobe PDF files of the lead sheets

### **The Song List**

- The song list is in alphabetical order. The duration and vocal range of each song is included.
- Each song has a corresponding "lead sheet". This sheet music provides the notes and lyrics. Photocopy lead sheet(s) for the soloist.

### **The CD's**

- The CDs are labeled "Disc A", "Disc B", "Disc C", etc.
- Each CD contains 14 songs (2 tracks per song ~ total of 28 tracks per CD)
- ODD numbered tracks demonstrate how the melody, lyrics and accompaniment work together. Use the ODD numbered tracks for rehearsal.
- EVEN numbered tracks contain instruments only. Use the EVEN numbered tracks for rehearsal and performance.
- The even numbered (rehearsal/performance) tracks are recorded at a higher volume than the odd numbered tracks.
- The CD will NOT automatically stop at the end of the track.
