

Greetings,

Please accept our sincere condolence and prayers at this very special time.

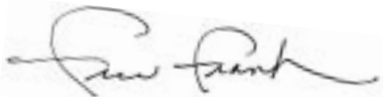

The person helping you with arrangements will do everything possible to help you plan a meaningful service with a minimum amount of effort on your part.

"Comfort Music Solo Accompaniment Tracks" are recorded instrumental tracks that have been professionally arranged and recorded to support and enhance your soloist's presentation. The recordings honor the original intention of the composers while presenting the music in a fresh and appropriate manner. They do not distract or draw attention to themselves. Ask to listen to samples.

It is our wish that the song selections offered in this collection will encourage you and add meaning to the service you are planning.

Please look at the song list ~ then select the titles you wish the soloist to sing.

We're committed to serving you,

Fred Frank

President, Comfort Music
